

## HOW TO MAKE YOUR FORTUNE TELLER

Before you start, cut off these instructions along the red dotted line so you are left with a square piece of paper.

- 1 Fold the paper into quarters.
- 2 Unfold the paper.
- 3 Fold over the four corners evenly into the middle so the points just touch. You should be able to see the pictures.
- 4 Flip over the paper.
- 5 Fold over the four corners to the middle on the new side of the paper. You should see all the numbers.
- 6 Fold in half and then half again.
- 7 Put your fingers into the slits under the characters and play.

## HOW TO USE YOUR FORTUNE TELLER

- 1 Ask a friend to pick a character.
- 2 Spell out the character as you move the fortune teller back and forth (i.e. JULIET - six letters, move 6 times).
- 3 Ask them to pick a number from the inside.
- 4 Move the fortune teller that many times.
- 5 Ask them to pick a new number.
- 6 Open the flap of the number they picked.
- 7 Read out the Shakespeare quote – is it an insult or a compliment?
